Class R6:	LARVX	543908586

Not all share classes are available to all investors. Please see prospectus for more information.

AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 03/31/2018

CLASS A SHARES	YTD	1 YEAR	3 YEARS	5 YEARS	10 YEARS	EXPENSE RATIOS ¹	
Net Asset Value (without sales charge)	-1.00	7.31	3.52	4.58	4.05	Gross	Net [†]
Maximum Offering Price (with 2.25% sales charge)	-3.25	4.93	2.73	4.10	3.81	1.51%	1.36%

GROWTH OF \$10,000

Based on a hypothetical Class A Share investment of \$10,000 on 09/30/1988, at net asset value and includes the reinvestment of all distributions. Data as of 12/31/2017.

CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017
NAV	-37.33	37.83	11.36	-6.89	15.02	14.66	2.15	-7.43	8.86	12.65

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to CDSC. The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

The Fund implemented its current investment strategy effective July 1, 2008. The performance of the Fund for periods prior to July 1, 2008 is not representative of the Fund's current investment strategy. The change in investment approach may affect the Fund's performance in the future.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

¹ Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown. Gross Expense Ratio includes Management fees, Distribution and Service (12b-1) fees, Acquired Fund Fees and Expenses, and Other Expenses.

² Reflects the average net expenses of Class A shares of all funds within the Lipper Flexible Portfolio Funds Category based on Lipper data available.

A Note about Risk: The Fund invests in underlying funds that may engage in a variety of investment strategies involving certain risks; the Fund is subject to the particular risks of an underlying fund in proportion to a respective investment. Performance of an underlying fund may be lower than the performance of the asset class it represents. The Fund is subject to risks associated with equity and fixed-income markets, as well as the financial condition and prospects of issuers in which the underlying funds invest. The value of investments in equity securities will fluctuate in response to general economic conditions and to changes in the prospects of particular companies and/or sectors in the economy. Investments in small and/or mid-sized company stocks typically involve greater risk, particularly in the short term, than those in larger, more established companies. Fixed income investments are subject to risks of default, interest-rate volatility, and illiquidity. These risks are greater for high yield bonds. Foreign securities may pose greater risks than domestic securities, including greater price fluctuation, less government regulation, and higher transaction costs. Foreign investments also may be affected by changes in currency rates or currency controls. These risks can be greater in the case of emerging country securities. The Fund is subject to the risks associated with derivatives, which may be different from and greater than the risks associated with investing directly in securities and other investments. These factors can affect Fund performance.
