AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 09/30/2022

CLASS A SHARES	YTD	1 YEAR	3 YEARS	5 YEARS	SINCE INCEPTION	EXPENSE RATIOS ¹	
Net Asset Value (without sales charge)	-11.40	-10.85	-1.68	0.58	1.44	Gross	Net [†]
Maximum Offering Price (with 2.25% sales charge)	-13.41	-12.88	-2.43	0.12	1.12	0.75%	0.70%

CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2016	2017	2018	2019	2020	2021
NAV	-0.20	5.30	2.10	7.05	2.15	4.08

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to a contingent deferred sales charge (CDSC). The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

[†]Among 51 qualifying fund families. Based on net total return of the one-year period ending 12/31/2021. Barron's Top Fund Families of 2021, February 18, 2022, Lord Abbett Funds ranked 7 out of 51, 4 out of 49, 4 out of 45 mutual fund families within the tax exempt category for the 1-, 5- and 10- year periods ending 12/31/2021, respectively.

The Short Duration High Income Municipal Bond Fund A share rankings within the Lipper High Yield Municipal Debt Funds Average as of 09/30/2022 for the one-year time period was 16% (29/190); and five-year, 49% (80/163). Source: Lipper Analytical Services. Lipper Funds Average ranking reflect all share classes within the category and are based on total return and do not reflect the effect of sales charges.

Effective November 1, 2021 the Lord Abbett Short Duration High Yield Municipal Bond Fund changed its name to Lord Abbett Short Duration High Income Municipal Bond Fund. There was no change to the Fund's investment strategy.

¹Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

²Reflects the average net expenses of Class A shares of all funds within the Lipper High Yield Municipal Debt Funds Category based on Lipper data available.

A Note about Risk: The Fund invests substantially in lower rated municipal bonds (commonly referred to as "below investment grade", "high yield" or "junk bonds"). High-yield securities carry increased risks of price volatility, illiquidity, and the possibility of default in the timely payment of interest and principal. High-yield municipal bonds are subject to greater risk of loss of income and principal than higher-rated securities, and are likely to be more sensitive to adverse economic changes or individual municipal developments than those of higher-rated securities. The Fund concentrates on high yield municipal bonds with shorter maturities and durations, which carry heightened credit risk, liquidity risk and potential for default. In addition, because the Fund is nondiversified, it will be more exposed to risks from a single adverse economic, political, or regulatory event than a diversified fund. A portion of the income derived from the Fund's portfolio may be subject to the alternative minimum tax. Any capital gains realized may be subject to taxation. Federal, state, and local taxes may apply. There is a risk that a bond issued as tax-exempt may be reclassified by the IRS as taxable, creating taxable rather than tax-exempt income. In addition, the Fund is subject to other types of risks, such as call, credit, liquidity, interest rate, and general market risks. The Fund may invest in derivatives, which are subject to greater liquidity, leverage, and counterparty risk. The Fund may invest in Puerto Rico and other U.S. territories, commonwealths, and possessions, and may be affected by local, state, and regional factors. These may include, for example, economic or political developments, erosion of the tax base, and the possibility of credit problems. These factors can affect Fund performance. The fund performance history at this time is very limited; therefore, performance achieved during its initial period of investment operation may not be replicated over longer periods and may not be indicative of how the Fund will perform in the future. Past performance is no guarantee of future results.

The Fund's portfolio is actively managed and is subject to change.

FUND BASICS

Total Net Assets (\$M):³ \$876.7
Inception Date: 06/15/2015 (Class A)
Capital Gains Distribution: December
Dividend Frequency: Monthly
Minimum Initial Investment: \$1,000

³Includes all share classes.

EXPENSE RATIOS ¹	GROSS	NET ²
Class A:	0.75%	0.70%
Class C:	1.42%	1.37%
Class F:	0.65%	0.60%
Class F3:	0.49%	0.44%
Class I:	0.55%	0.50%

¹The net expense ratio takes into account contractual fee waivers/expense reimbursements that currently are scheduled to remain in place through 01/31/2023. For periods when fees and expenses were waived and/or reimbursed, the Fund benefited by not bearing such expenses. Without such fee waivers/reimbursements, performance would have been lower. In addition, the net expense ratio takes into account deductions for certain interest and related expenses from certain of the Fund's investments. Under accounting rules, the Fund recognized additional income in an amount that directly offsets these interest and related expenses. Therefore, the Fund's total returns and net asset value were not affected by such interest and related expenses.

MATURITY BREAKDOWN

Maturity Breakdowns exclude cash and futures and therefore Fund percentage allocations may not equal 100%.

CREDIT QUALITY DISTRIBUTION

Ratings provided by Standard & Poor's, Moody's, and Fitch. Where the rating agencies rate a security differently, Lord Abbett uses the higher credit rating. For a security with both a short-term and a long-term rating, Lord Abbett has categorized the security in the chart above using its short-term rating only. Ratings range from AAA (highest) to D (lowest). Bonds rated BBB or above are considered investment grade. Credit ratings BB and below are lower-rated securities (junk bonds). High-yielding, non-investment grade bonds (junk bonds) involve higher risks than investment grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on these securities. Credit quality allocation reflects market value weightings. Breakdown is not an S&P credit rating or an opinion of S&P as to the creditworthiness of such portfolio. Ratings apply to the creditworthiness of the issuers of the underlying securities and not the fund or its shares. Ratings may be subject to change.

GLOSSARY OF TERMS

Effective Duration is the change in the value of a fixed income security that will result from a 1% change in market interest rates, taking into account anticipated cash flow fluctuations from mortgage prepayments, puts, adjustable coupons, and potential call dates. Duration is expressed as a number of years, and generally, the larger a duration, the greater the interest-rate risk or reward for a portfolio's underlying bond prices. Where applicable, securities, such as common or preferred stock, convertible bonds and convertible preferred stock, ETFs and ADRs, and CPI swaps and related futures, are excluded from these calculations.

Average Effective Maturity is the length of time until the average security in a portfolio will mature or be redeemed by its issuer in proportion to its dollar value. Indicating a portfolio's sensitivity to general market interest rate changes, a longer average maturity implies greater relative portfolio volatility.

Lipper High Yield Municipal Debt Funds Average is based on a universe of funds with similar investment objectives as the Fund. Source: Lipper Analytical Services.

Important Information: The portfolio characteristics and maturity breakdown exclude characteristics of any securities that are distressed or in default. Such securities comprised 0.33% of the fund as of 09/30/2022.

If you are an individual retirement investor, contact your financial professional or other fiduciary about whether any given investment idea, strategy, product or service may be appropriate for your circumstances. "Barron's Best Fund Families of 2021," February 18, 2022. Barron's rankings are based on asset weighted returns in funds in five categories: general equity, world equity (including international and global portfolios), mixed asset (which invest in stocks, bonds and other securities), taxable bond, and tax-exempt (each a "Barron's ranking category"). Rankings also take into account an individual fund's performance within its Lipper peer universe. Lipper calculated each fund's net total return for the year ended December 31, 2021, minus the effects of 12b-1 fees and sales charges. Each fund in the survey was given a percentile ranking with 100 the highest and 1 the lowest in its category. That ranking measured how a fund compared with its peer "universe," as tracked by Lipper, not just the funds in the survey. Individual fund scores were then multiplied by the 2021 weighting of their Barron's ranking category as determined by the entire Lipper universe of funds. Those fund scores were then totaled, creating an overall score and ranking for each fund family in the survey in each Barron's ranking category. The process is repeated for the five- and ten-year rankings as well.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Lord Abbett Funds.
