STEP 1: ACCOUNT REGISTRATION INFORMATION

Owner Name (First Name, MI, Last Name) _____ Social Security Number _____ Date of Birth (MM/DD/YYYY) ____/____/____

Daytime Phone Number _____

STEP 2: DISTRIBUTION TYPE

- Apply my required minimum distribution (RMD) across all applicable account types OR
- Select one of the following Lord Abbett IRA accounts from which you are requesting a systematic distribution.
 - Traditional IRA
 - Roth IRA
 - Rollover IRA
 - SIMPLE IRA
 - SEP IRA
 - SARSEP IRA
 - Decedent IRA

STEP 3: DISTRIBUTION REASON (Complete either A, B, C or D)

A. Normal and Early Distribution

Select one of the following ages that apply:

- Over age 59½
- Under age 59½ (early withdrawal penalties may apply)

Select one of the following fixed-dollar-amount methods for distribution:

- Distributions should be a fixed dollar amount of \$ _____ every period. (See Step 5.)
- Distribute _____% (choose a percentage between 1% and 100%) of the account's value and indicate in Step 4 from which funds the payments will be made. The payments will vary based on net asset value at the time of the withdrawal and the annual percentage divided by the number of payments, as selected in Step 5. (If you choose this method, Lord Abbett is not responsible for the minimum required distribution calculation.)

B. Required Minimum Distribution (RMD) (Roth IRAs do not require minimum distributions until after the death of the shareholder)

Select one of the following calculation methods:

- Calculations will be based on the Uniform Lifetime Table promulgated in the IRS minimum distribution regulations based on a shareholder's age, a named beneficiary (spouse or nonspouse) who is not more than 10 years younger than the shareholder, or no beneficiary at all. It is understood that only a spouse beneficiary more than 10 years younger than the shareholder will affect the calculation.
- Calculations will be based on the Joint and Last Survivor Table promulgated in the IRS minimum distribution regulations, if the spouse is the sole beneficiary and is more than 10 years younger than the shareholder. Distributions should be made to pay out the entire account over the joint life expectancy of the shareholder and the named spouse and will be calculated by Lord Abbett based on the information provided.

Spouse's date of birth is ____/____/____.
(MM/DD/YYYY)

For either calculation selected, the RMD will be taken from all Lord Abbett IRA accounts.

Important information regarding transferred assets only: If shareholder has transferred an IRA account from another custodian during the current calendar year, please provide the preceding year-end market value of the account: \$ _____.

STEP 3: DISTRIBUTION REASON (continued)

Optional selection if this age applies:

Just age 72 (or age 70 1/2, if the owner attained age 70 1/2 on or before December 31, 2019)

Note: The first minimum distribution must be taken at any time during the calendar year the shareholder attains age 72 (or age 70 1/2, if the owner attained age 70 1/2 on or before December 31, 2019), or the distribution can be deferred until April 1 of the following year. Subsequent minimum distributions must be taken by December 31 of each year thereafter. However, the Coronavirus Aid, Relief and Economic Security Act suspended RMDs otherwise required to be made in calendar year 2020 from certain retirement plans (including for example 401(k), 403(b) and 457(b) plans).

Defer the first distribution until the following year and distribute on / / (prior to April 1).
(MM/DD/YYYY)

C. Decedent IRA (for beneficiaries receiving RMDs after the shareholder’s death, if the shareholder dies on or before December 31, 2019)

Select either the spouse or nonspouse option:

Spouse beneficiaries

Elect to leave assets in the shareholder’s IRA and receive a minimum distribution after the shareholder’s death. Calculations will be based on the Single Life Table promulgated in the IRS minimum distribution regulations over the spouse’s life expectancy or the shareholder’s RMD schedule if the shareholder had been over age 70 1/2 (if the shareholder attained age 70 1/2 on or before December 31, 2019) and if longer.

Nonspouse beneficiaries

Receive a minimum distribution after the shareholder’s death. Calculations will be based on the Single Life Table promulgated in the IRS minimum distribution regulation determined in the year following the shareholder’s death, reduced by one for each subsequent year. Any beneficiary named may continue to receive payments based on remaining life expectancy or may accelerate distributions as desired.

D. Decedent IRA (for beneficiaries receiving RMDs after the shareholder’s death, if the shareholder dies after December 31, 2019)

Select the spouse, nonspouse eligible or nonspouse option:

Spouse beneficiaries

Elect to leave assets in the decedent IRA and receive a minimum distribution after the shareholder’s death. Calculations will be based on the Single Life Table promulgated in the IRS minimum distribution regulations over the spouse’s life expectancy.

Note: Minimum distributions are not required to begin before the end of the calendar year in which the shareholder would have reached age 72. Upon the death of the spouse, a named beneficiary inheriting the account must liquidate it within 10 years of the spouse’s death.

Nonspouse eligible beneficiaries (a disabled individual, a chronically ill individual, a minor child or an individual who is not more than 10 years younger than the shareholder)

Receive a minimum distribution after the shareholder’s death. Calculations will be based on the Single Life Table promulgated in the IRS minimum distribution regulation determined in the year following the shareholder’s death, reduced by one for each subsequent year. Any eligible beneficiary named may continue to receive payments based on remaining life expectancy or may accelerate distributions as desired.

Note: Minor children who reach the age of majority must liquidate any remaining portion of the account within 10 years of reaching the age of majority.

Nonspouse beneficiaries

Receive a minimum distribution after the shareholder’s death. Any beneficiary named must liquidate the account by December 31 of the calendar year that includes the tenth anniversary of the shareholder’s death.

STEP 4: DISTRIBUTION FUND/ACCOUNT

Indicate how you would like distributions to be taken. If no option is selected, distributions will be taken from all fund/accounts individually based on the annual RMD requirement for each fund/account.

Take distributions from all fund/accounts individually based on the calculated RMD requirement for each fund/account (proceed to Step 5)

Take distributions from all fund/accounts in equal percentages (proceed to Step 5)

Take distributions as indicated below (percentage allocations must be set separately below for each distribution type selected in Step 2)

Fund Name	Share Class	Account Number	Dollar Amount or Share Percentage (whole % only)
1. _____	_____	_____	_____
2. _____	_____	_____	_____
3. _____	_____	_____	_____
4. _____	_____	_____	_____

If that day falls on a weekend or holiday, your distribution will be made on the next business day.

STEP 6: FEDERAL INCOME TAX WITHHOLDING

If you elect not to have federal income tax withheld from the taxable portion of your distribution(s) or if the amount of tax withheld is not enough, you may be required to pay estimated income taxes. Medallion Signature Guarantees must cover the amount of the requested transaction. There are several different guarantee amounts, so it is important to acquire a guarantee amount equal to or greater than the amount of the transaction(s).

To obtain a Medallion Signature Guarantee, sign this form in the presence of an authorized person at a broker/dealer firm or at another financial institution, such as a bank or trust company. A notarization from a notary public does not meet Medallion Signature Guarantee requirements.

Please place Medallion Signature Guarantee here.
