Class R4:	LIXSX	54401E705
Class R5:	LIXTX	54401E804
Class R6:	LIXVX	54401E887

Not all share classes are available to all investors. Please see prospectus for more information.

AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 03/31/2026

CLASS A SHARES	YTD	1 YEAR	3 YEARS	5 YEARS	10 YEARS	EXPENSE RATIOS ¹	
Net Asset Value (without sales charge)	-0.76	9.40	8.90	3.42	5.99	Gross	Adjusted [†]
Maximum Offering Price (with 2.25% sales charge)	-3.01	6.94	8.07	2.94	5.75	1.16%	1.00%

GROWTH OF \$10,000

Based on a hypothetical Class A Share investment of \$10,000 on 06/30/2005, at net asset value and includes the reinvestment of all distributions. Data as of 12/31/2025.

CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
NAV	9.28	9.17	-6.41	15.86	13.81	7.54	-14.30	9.03	9.95	11.37

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to a contingent deferred sales charge (CDSC). The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

Barron's Top Fund Families of 2025, February 26, 2026, Lord Abbett Funds ranked 5 out of 45, 13 out of 42, 9 out of 42 mutual fund families within the overall category for the 1-, 5- and 10-year periods ending 12/31/2025, respectively.

The Multi-Asset Income Fund A share rankings within the Lipper Mixed-Asset Trgt Alloc Con Fds Average as of 03/31/2026 for the one-year time period was 43% (123/291); five-year, 44% (118/272); and 10-year, 7% (15/227). Source: Lipper Analytical Services. Lipper Funds Average ranking reflect all share classes within the category and are based on total return and do not reflect the effect of sales charges.

¹Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown. Gross Expense Ratio includes Management fees, Distribution and Service (12b-1) fees, Acquired Fund Fees and Expenses, and Other Expenses.

A Note about Risk: The Fund invests in underlying funds that may engage in a variety of investment strategies involving certain risks; the Fund is subject to the particular risks of an underlying fund in proportion to a respective investment. Because the Fund will be more heavily invested in fixed-income funds than equity funds, it will be more affected by interest rate risk, credit risk, liquidity risk, and other risks associated with debt securities. These risks are greater for high yield debt securities. The underlying funds' equity investments are subject to greater risk and market volatility than fixed income investments. Foreign investing, especially in developing countries, carries additional risks, such as currency and market volatility, and political and social instability. The Fund is subject to the risks associated with derivatives, which may be different from and greater than the risks associated with investing directly in securities and other investments. These factors can affect Fund performance.

Barron's Disclosure: Used with permission. ©2026 Dow Jones & Company, Inc. Source: "Barron's Best Fund Families of 2025," February 26, 2026. Barron's rankings are based on asset weighted returns in funds in five categories: general equity, world equity (including international and global portfolios), mixed asset (which invest in stocks, bonds and other securities), taxable bond, and tax-exempt (each a "Barron's ranking category"). Rankings also take into account an individual fund's performance within its Lipper peer universe. Lipper calculated each fund's net total return for the year ended December 31, 2025, minus the effects of 12b-1 fees and sales charges. Each fund in the survey was given a percentile ranking with 100 the highest and 1 the lowest in its category. That ranking measured how a fund compared with its peer "universe," as tracked by Lipper, not just the funds in the survey. Individual fund scores were then multiplied by the 2025 weighting of their Barron's ranking category as determined by the entire Lipper universe of funds. Those fund scores were then totaled, creating an overall score and ranking for each fund family in the survey in each Barron's ranking category. The process is repeated for the five- and ten-year rankings as well.
