

# SHORT DURATION HIGH YIELD MUNICIPAL BOND FUND

## LOWER EXPENSES - CLASS A

Fund Expense Ratio <sup>1†</sup>	0.55%
Category Average <sup>2</sup>	0.90%

## GOAL

The Fund seeks to deliver a high level of income exempt from federal income tax by investing primarily in short duration high-yield municipal bonds.

## PORTFOLIO CHARACTERISTICS

Average Effective Maturity: 6.5 Years

Average Effective Duration: 3.6 Years

## FUND SYMBOLS/CUSIPS

Class A:	SDHAX	543912729
Class C:	SDHCX	543912711
Class F:	SDHFX	543912695
Class F3:	HYMQX	543902456
Class I:	SDHIX	543912687

Not all share classes are available to all investors. Please see prospectus for more information.

## AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 06/30/2019

CLASS A SHARES	YTD	1 YEAR	3 YEARS	SINCE INCEPTION	EXPENSE RATIOS <sup>1</sup>	
					Gross	Net <sup>†</sup>
Net Asset Value (without sales charge)	4.51	5.42	2.76	3.51		
Maximum Offering Price (with 2.25% sales charge)	2.13	3.04	1.98	2.93	0.78%	0.55%

## CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2016	2017	2018
NAV	-0.20	5.30	2.10

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to CDSC. The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

**Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.**

<sup>1</sup>Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

<sup>2</sup>Reflects the average net expenses of Class A shares of all funds within the Lipper High Yield Municipal Debt Funds Category based on Lipper data available.

**A Note about Risk:** The Fund invests substantially in lower rated municipal bonds (commonly referred to as "below investment grade", "high yield" or "junk bonds"). High-yield securities carry increased risks of price volatility, illiquidity, and the possibility of default in the timely payment of interest and principal. High-yield municipal bonds are subject to greater risk of loss of income and principal than higher-rated securities, and are likely to be more sensitive to adverse economic changes or individual municipal developments than those of higher-rated securities. The Fund concentrates on high yield municipal bonds with shorter maturities and durations, which carry heightened credit risk, liquidity risk and potential for default. In addition, because the Fund is nondiversified, it will be more exposed to risks from a single adverse economic, political, or regulatory event than a diversified fund. A portion of the income derived from the Fund's portfolio may be subject to the alternative minimum tax. Any capital gains realized may be subject to taxation. Federal, state, and local taxes may apply. There is a risk that a bond issued as tax-exempt may be reclassified by the IRS as taxable, creating taxable rather than tax-exempt income. In addition, the Fund is subject to other types of risks, such as call, credit, liquidity, interest rate, and general market risks. The Fund may invest in derivatives, which are subject to greater liquidity, leverage, and counterparty risk. The Fund may invest in Puerto Rico and other U.S. territories, commonwealths, and possessions, and may be affected by local, state, and regional factors. These may include, for example, economic or political developments, erosion of the tax base, and the possibility of credit problems. These factors can affect Fund performance. The fund performance history at this time is very limited; therefore, performance achieved during its initial period of investment operation may not be replicated over longer periods and may not be indicative of how the Fund will perform in the future. Past performance is no guarantee of future results.

The Fund's portfolio is actively managed and is subject to change.

**INVESTMENT TEAM**

**FUND BASICS**

Total Net Assets(\$M):<sup>3</sup> \$367.2  
Inception Date: 06/15/2015 (Class A)  
Capital Gains Distribution: December  
Dividend Frequency: Monthly  
Minimum Initial Investment: \$1,000

<sup>3</sup>Includes all share classes.

EXPENSE RATIOS <sup>1</sup>	GROSS	NET <sup>†</sup>
Class A:	0.78%	0.55%
Class C:	1.45%	1.22%
Class F:	0.68%	0.45%
Class F3:	0.53%	0.30%
Class I:	0.58%	0.35%

<sup>†</sup>The net expense ratio takes into account contractual fee waivers/expense reimbursements that currently are scheduled to remain in place through 01/31/2020. For periods when fees and expenses were waived and/or reimbursed, the Fund benefited by not bearing such expenses. Without such fee waivers/reimbursements, performance would have been lower. In addition, the net expense ratio takes into account deductions for certain interest and related expenses from certain of the Fund's investments. Under accounting rules, the Fund recognized additional income in an amount that directly offsets these interest and related expenses. Therefore, the Fund's total returns and net asset value were not affected by such interest and related expenses.

**MATURITY BREAKDOWN**

Maturity Breakdowns exclude cash and futures and therefore Fund percentage allocations may not equal 100%.

**CREDIT QUALITY DISTRIBUTION**

Ratings provided by Standard & Poor's, Moody's, and Fitch. Where the rating agencies rate a security differently, Lord Abnett uses the higher credit rating. For a security with both a short-term and a long-term rating, Lord Abnett has categorized the security in the chart above using its short-term rating only. Ratings range from AAA (highest) to D (lowest). Bonds rated BBB or above are considered investment grade. Credit ratings BB and below are lower-rated securities (junk bonds). High-yielding, non-investment grade bonds (junk bonds) involve higher risks than investment grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on these securities. A portion of the portfolio's securities may not be rated. A-1/MIG1, A-2/MIG2 and A-3/MIG3 designations denote securities with less than a three-year maturity as well as superior (A-1/MIG1), strong (A-2/MIG2) and favorable (A-3/MIG3) credit quality. Credit quality allocation reflects market value weightings. Breakdown is not an S&P credit rating or an opinion of S&P as to the creditworthiness of such portfolio. Ratings apply to the creditworthiness of the issuers of the underlying securities and not the fund or its shares. Ratings may be subject to change.

**GLOSSARY OF TERMS**

**Effective Duration** is the change in the value of a fixed income security that will result from a 1% change in market interest rates, taking into account anticipated cash flow fluctuations from mortgage prepayments, puts, adjustable coupons, and potential call dates. Duration is expressed as a number of years, and generally, the larger a duration, the greater the interest-rate risk or reward for a portfolio's underlying bond prices. Where applicable, securities, such as common or preferred stock, convertible bonds and convertible preferred stock, ETFs and ADRs, and CPI swaps and related futures, are excluded from these calculations.

**Average Effective Maturity** is the length of time until the average security in a portfolio will mature or be redeemed by its issuer in proportion to its dollar value. Indicating a portfolio's sensitivity to general market interest rate changes, a longer average maturity implies greater relative portfolio volatility.

**Lipper High Yield Municipal Debt Funds Average** is based on a universe of funds with similar investment objectives as the Fund. Source: Lipper Analytical Services.

**Important Information:** The portfolio characteristics and maturity breakdown exclude characteristics of any securities that are distressed or in default. Such securities comprised 1.42% of the fund as of 06/30/2019.
