Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance is shown for each calendar year. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to a contingent deferred sales charge (CDSC). The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

Effective July 1, 2019, the Lord Abbett Micro Cap Value Fund changed its name to Lord Abbett Focused Small Cap Value Fund, and changed its investment strategy. Therefore, the performance of the Fund for periods prior to July 1, 2019 is not representative of the Fund's current investment strategy. In addition, the benchmark index performance information shown is based on the new benchmark which is most appropriate for the new strategy. The change in investment approach may affect the Fund's performance. Please refer to the Fund's prospectus for additional information.

¹Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

²Reflects the average net expenses of Class A shares of all funds within the Lipper Small-Cap Core Funds Category based on Lipper data available.

A Note about Risk: The value of investments in equity securities will fluctuate in response to general economic conditions and to changes in the prospects of particular companies, including market, liquidity, currency, and political risks. Although the Fund invests a significant portion in large cap company stocks, it also invests in mid cap and small cap company stocks, which tend to be more volatile and may be less liquid than large cap company stocks. Mid and small cap companies typically experience higher risk of failure than large cap companies. However, larger companies may have slower rates of growth than smaller successful companies. Investments in value companies can continue to be undervalued for long periods of time and be more volatile than the stock market in general. These factors can adversely affect Fund performance.

The Fund's portfolio is actively managed and is subject to change.

[†]The net expense ratio is based on estimates for the current fiscal year and takes into account contractual fee waivers/expense reimbursements that currently are scheduled to remain in place through 02/28/2021. For periods when fees and expenses were waived and/or reimbursed, the Fund benefited by not bearing such expenses. Without such fee waivers/reimbursements, performance would have been lower.

GLOSSARY OF TERMS

Weighted Average Market Capitalization is the average market capitalization of all companies held in the portfolio, with each company weighted according to its percent held in the portfolio.

Price/Earnings Ratio is the weighted average of each holding's P/E ratio (price of a stock divided by its earnings per share).

The Russell 2000[®] Value Index measures the performance of those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values. Index is unmanaged, does not reflect the deduction of fees or expenses; and is not available for direct investment.

Lipper Small-Cap Core Funds Average is based on a universe of funds with similar investment objectives as the Fund. Source: Lipper Analytical Services.
