

## SUSTAINABLE MUNICIPAL BOND FUND

### LOWER EXPENSES - CLASS A

Fund Expense Ratio <sup>1†</sup>	0.63%
Category Average <sup>2</sup>	0.71%

### GOAL

The Fund seeks to deliver a high level of income exempt from federal taxation by investing primarily in intermediate-term investment grade municipal bonds.

### PORTFOLIO CHARACTERISTICS

Average Effective Maturity: 8.1 Years  
Average Effective Duration: 5.3 Years

### FUND SYMBOLS/CUSIPS

Class A:	LASMX	54402J109
Class C:	LCSBX	54402J208
Class F:	LSMFX	54402J307
Class F3:	LSMOX	54402J406
Class I:	LISMX	54402J505

Not all share classes are available to all investors. Please see prospectus for more information.

### AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 12/31/2022

CLASS A SHARES	SINCE INCEPTION	EXPENSE RATIOS <sup>1</sup>	
Net Asset Value (without sales charge)	-7.54	Gross	Net <sup>†</sup>
Maximum Offering Price (with 2.25% sales charge)	-9.63	0.73%	0.63%

Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to a contingent deferred sales charge (CDSC). The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

**Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.**

<sup>1</sup>Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

<sup>2</sup>Reflects the average net expenses of Class A shares of all funds within the Lipper Intermediate Municipal Debt Funds Category based on Lipper data available.

**New Fund Risk:** The Fund is newly organized. There can be no assurance that the Fund will reach or maintain a sufficient asset size to effectively implement its investing strategy.

**A Note about Risk:** The value of an investment in the Fund will change as interest rates fluctuate in response to market movements. When interest rates rise, the prices of debt securities are likely to decline, and when interest rates fall, the prices of debt securities tend to rise. A portion of the income derived from the Fund's portfolio may be subject to the alternative minimum tax. Any capital gains realized may be subject to taxation. Federal, state, and local taxes may apply. There is a risk that a bond issued as tax-exempt may be reclassified by the IRS as taxable, creating taxable rather than tax-exempt income. The Fund is subject to the risk that its investment strategy's consideration of sustainability-related factors may result in the selection or exclusion of securities of certain investments based on Lord Abbett's view of these factors and carries the risk that the Fund may underperform funds that do not take sustainability-related factors into account. Sustainability factors may affect the Fund's exposure to certain issuers, sectors, regions, countries or types of investments, which could negatively impact the Fund's performance depending on whether such investments are in or out of favor. Certain sustainability-related investments may be dependent on government policies and subsidies, which are subject to change or elimination. Below investment grade bonds involve higher risk than investment grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on those securities. In addition, the Fund is subject to other types of risks, such as call, credit, liquidity, interest rate, and general market risks. From time to time, the Fund may be more exposed to risks affecting a particular state, territory (such as Puerto Rico), municipality, or region. As a result, adverse economic, political, and regulatory conditions affecting a single state, territory, municipality, or region (and their political subdivisions, agencies, instrumentalities, and public authorities) can disproportionately affect the Fund's performance. These factors can adversely affect Fund performance. The Fund's portfolio is actively managed and is subject to change.

**INVESTMENT TEAM**

**Team Leader(s):**

Gregory M. Shuman, CFA, Partner  
12 Years Industry Experience

Christopher T. English, CFA  
12 Years Industry Experience

Daniel S. Solender, CFA, Partner & Director  
35 Years Industry Experience

**Supported By:**

15 Investment Professionals  
12 Years Avg. Industry Experience

**FUND BASICS**

Total Net Assets (\$M):<sup>3</sup> \$5.0

Inception Date: 01/24/2022 (Class A)

Capital Gains Distribution: December

Dividend Frequency: Monthly

Minimum Initial Investment: \$1,500

<sup>3</sup>Includes all share classes.

**EXPENSE RATIOS<sup>1</sup> GROSS NET<sup>†</sup>**

	GROSS	NET <sup>†</sup>
Class A:	0.73%	0.63%
Class C:	1.53%	1.43%
Class F:	0.63%	0.53%
Class F3:	0.49%	0.39%
Class I:	0.53%	0.43%

<sup>†</sup>The net expense is based on estimates for the current fiscal year and takes into account contractual fee waivers/expense reimbursements that currently are scheduled to remain in place through 01/31/2023. For periods when fees and expenses were waived and/or reimbursed, the Fund benefited by not bearing such expenses. Without such fee waivers/reimbursements, performance would have been lower.

**MATURITY BREAKDOWN**

Maturity Breakdowns exclude cash and futures and therefore Fund percentage allocations may not equal 100%.

**CREDIT QUALITY DISTRIBUTION**

Ratings provided by Standard & Poor's, Moody's, and Fitch. Where the rating agencies rate a security differently, Lord Abbett uses the higher credit rating. For a security with both a short-term and a long-term rating, Lord Abbett has categorized the security in the chart above using its short-term rating only. Ratings range from AAA (highest) to D (lowest). Bonds rated BBB or above are considered investment grade. Credit ratings BB and below are lower-rated securities (junk bonds). High-yielding, non-investment grade bonds (junk bonds) involve higher risks than investment grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on these securities. Credit quality allocation reflects market value weightings. Breakdown is not an S&P credit rating or an opinion of S&P as to the creditworthiness of such portfolio. Ratings apply to the creditworthiness of the issuers of the underlying securities and not the fund or its shares. Ratings may be subject to change.

**GLOSSARY OF TERMS**

**Effective Duration** is the change in the value of a fixed income security that will result from a 1% change in market interest rates, taking into account anticipated cash flow fluctuations from mortgage prepayments, puts, adjustable coupons, and potential call dates. Duration is expressed as a number of years, and generally, the larger a duration, the greater the interest-rate risk or reward for a portfolio's underlying bond prices. Where applicable, securities, such as common or preferred stock, convertible bonds and convertible preferred stock, ETFs and ADRs, and CPI swaps and related futures, are excluded from these calculations.

**Average Effective Maturity** is the length of time until the average security in a portfolio will mature or be redeemed by its issuer in proportion to its dollar value. Indicating a portfolio's sensitivity to general market interest rate changes, a longer average maturity implies greater relative portfolio volatility.

**Lipper Intermediate Municipal Debt Funds Average** is based on a universe of funds with similar investment objectives as the Fund. Source: Lipper Analytical Services.
