Reflects the percent change in net asset value (NAV) of Class A shares and includes the reinvestment of all distributions. Performance of Class A shares with sales charge reflects the reinvestment of all distributions and includes initial maximum sales charge. Certain purchases of Class A shares without a sales charge are subject to a contingent deferred sales charge (CDSC). The CDSC is not reflected in the performance shown. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

[†]Among 53 qualifying fund families. Based on net total return of the one-year period ending 12/31/2020. Barron's Top Fund Families of 2020, February 19, 2021, Lord Abbett Funds ranked 9 out of 53, 11 out of 50, 31 out of 44 mutual fund families within the general equity category for the 1-, 5- and 10- year periods ending 12/31/2020, respectively.

The Durable Growth Fund A share rankings within the Lipper Large-Cap Growth Funds Average as of 03/31/2021 for the one-year time period was 53% (342/651). Source: Lipper Analytical Services. Lipper Funds Average ranking reflect all share classes within the category and are based on total return and do not reflect the effect of sales charges.

¹Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

²Reflects the average net expenses of Class A shares of all funds within the Lipper Large-Cap Growth Funds Category based on Lipper data available.

New Fund Risk: The Fund is newly organized. There can be no assurance that the Fund will reach or maintain a sufficient asset size to effectively implement its investing strategy.

A Note about Risk: The value of investments in equity securities will fluctuate in response to general economic conditions and to changes in the prospects of particular companies, including market, liquidity, currency, and political risks. Large companies may have slower rates of growth than smaller successful companies. Investments in growth companies can be more sensitive to the company's earnings and more volatile than the stock market in general. Investing internationally involves risks not associated with investing solely in the United States, such as currency fluctuation, political risk, differences in accounting and the limited availability of information. These risks can be greater in the case of emerging country securities. These factors can adversely affect Fund performance.

The Fund's portfolio is actively managed and is subject to change.

[†]The net expense ratio is based on estimates for the current fiscal year and takes into account contractual fee waivers/expense reimbursements that currently are scheduled to remain in place through 02/28/2022. For periods when fees and expenses were waived and/or reimbursed, the Fund benefited by not bearing such expenses. Without such fee waivers/reimbursements, performance would have been lower.

GLOSSARY OF TERMS

Weighted Average Market Capitalization is the average market capitalization of all companies held in the portfolio, with each company weighted according to its percent held in the portfolio.

Price/Earnings Ratio is the weighted average of each holding's P/E ratio (price of a stock divided by its earnings per share).

The Russell 1000[®] Growth Index measures the performance of those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values. Index is unmanaged, does not reflect the deduction of fees or expenses; and is not available for direct investment.

Lipper Large-Cap Growth Funds Average is based on a universe of funds with similar investment objectives as the Fund. Source: Lipper Analytical Services.

"Barron's Best Fund Families of 2020," February 19, 2021. Barron's rankings are based on asset weighted returns in funds in five categories: U.S. equity, world equity (including international and global portfolios), mixed asset (which invest in stocks, bonds and other securities), taxable bond, and tax-exempt (each a "Barron's ranking category"). Rankings also take into account an individual fund's performance within its Lipper peer universe. Lipper calculated each fund's net total return for the year ended December 31, 2020, minus the effects of 12b-1 fees and sales charges. Each fund in the survey was given a percentile ranking with 100 the highest and 1 the lowest in its category. That ranking measured how a fund compared with its peer "universe," as tracked by Lipper, not just the funds in the survey. Individual fund scores were then multiplied by the 2020 weighting of their Barron's ranking category as determined by the entire Lipper universe of funds. Those fund scores were then totaled, creating an overall score and ranking for each fund family in the survey in each Barron's ranking category. The process is repeated for the five- and ten-year rankings as well. Barron's Fund Family Rankings are awarded annually.
