

CREDIT OPPORTUNITIES FUND - CLASS I

GOAL

The Fund seeks to deliver high current income and total return through a flexible strategy investing across a broad range of global fixed income sectors.

PORTFOLIO CHARACTERISTICS

Average Effective Duration: 2.4 Years
Average Maturity: 5.1 Years
Number of Issues: 147

FUND SYMBOL/CUSIP

Class I: LCRDX 54400C106

Not all share classes are available to all investors. Please see prospectus for more information.

AVERAGE ANNUAL TOTAL RETURNS (%) AS OF 09/30/2022

CLASS I SHARES	YTD	1 YEAR	3 YEARS	SINCE INCEPTION	EXPENSE RATIO ¹
Net Asset Value (without sales charge)	-9.94	-9.52	5.80	5.75	1.40%

CALENDAR YEAR TOTAL RETURNS AT NAV (%)

	2020	2021
NAV	12.84	13.35

Reflects the percent change in net asset value (NAV) of Class I shares and includes the reinvestment of all distributions. Average Annual Total Returns are based on changes in the net asset value and assume reinvestment of all distributions and do not reflect deduction of any front-end sales charges which are not applicable for Class I shares, if these charges were included returns would be lower. Returns for less than one year are not annualized. Instances of high double-digit returns were achieved primarily during favorable market conditions and may not be sustainable over time.

Performance data quoted reflect past performance and are no guarantee of future results. Current performance may be higher or lower than the performance quoted. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. You can obtain performance data current to the most recent month-end by calling Lord Abbett at 888-522-2388 or referring to lordabbett.com.

The Fund is structured as an unlisted closed-end interval fund. Limited liquidity is provided to shareholders only through the Fund's quarterly offers to repurchase between 5% and 25% of its outstanding shares at net asset value, subject to applicable law and approval of the Board of Trustees. The Fund currently expects to offer to repurchase 5% of outstanding shares per quarter. There is no secondary market for the Fund's shares and none is expected to develop. There is no guarantee that an investor will be able to tender all or any of their requested Fund shares in a periodic repurchase offer. Investors should consider shares of the Fund to be an illiquid investment.

Although the Fund may impose a purchase fee of up to 2.00% on shares accepted for repurchase by the Fund that have been held for less than one year, the Fund does not currently intend to impose such a fee. Please refer to the Fund's prospectus for additional information.

The Fund's ability to be fully invested and achieve its investment objective may be affected by the need to fund repurchase obligations. In addition, the fees and costs associated with investing in an interval fund may be significantly greater than those of other fund structures.

¹Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

A Note about Risk: The Fund is subject to the general risks associated with investing in debt securities, including market, credit, liquidity, and interest rate risk. The Fund may invest in high-yield, lower-rated securities, sometimes called junk bonds. These securities carry increased risks of price volatility, illiquidity, and the possibility of default in the timely payment of interest and principal. The Fund may invest in debt securities of stressed and distressed issuers as well as in defaulted securities and debtor-in-possession financings. Distressed and defaulted instruments generally present the same risks as investment in below investment grade instruments. However, in most cases, these risks are of a greater magnitude because of the uncertainties of investing in an issuer undergoing financial distress. The Fund may invest in foreign or emerging market securities, which may be adversely affected by economic, political, or regulatory factors and subject to currency volatility and greater liquidity risk. The Fund may invest in derivatives, which are subject to greater liquidity, leverage, and counterparty risk. These factors can affect Fund performance.

Because of the risks associated with the Fund's ability to invest in high yield securities, loans and related instruments and mortgage-related and other asset-backed instruments, foreign (including emerging market) securities (and related exposure to foreign currencies), and the Fund's ability to use leverage, an investment in the Fund should be considered speculative and involving a high degree of risk, including the risk of a substantial loss of investment.

Collateralized Loan Obligations (CLOs) may involve a high degree of risk. CLOs are exposed to risks such as credit, default, liquidity, management, volatility, interest rate and credit risk. Special Situations includes distressed debt and other similar situations. MBS and ABS stand for mortgage backed securities and asset backed securities respectively.

The Fund's portfolio is actively managed and is subject to change.

INVESTMENT TEAM

Team Leader(s):

Jeffrey D. Lapin, J.D., Partner

PORTFOLIO BREAKDOWN

Portfolio breakdown excludes cash therefore Fund percentage allocations may not equal 100%.

CREDIT QUALITY DISTRIBUTION

Ratings (other than U.S. Treasury securities or securities issued or backed by U.S. agencies) provided by Standard & Poor's, Moody's, and Fitch. For certain securities that are not rated by any of these three agencies, credit ratings from other agencies may be used. Where the rating agencies rate a security differently, Lord Abbett uses the average rating based on numeric values assigned to each rating. Ratings range from AAA (highest) to D (lowest). Bonds rated BBB or above are considered investment grade. Credit ratings BB and below are lower-rated securities (junk bonds). High-yielding, non-investment-grade bonds (junk bonds) involve higher risks than investment-grade bonds. Adverse conditions may affect the issuer's ability to pay interest and principal on these securities. A portion of the portfolio's securities may not be rated. Breakdown is not an S&P credit rating or an opinion of S&P as to the creditworthiness of such portfolio. Ratings apply to the creditworthiness of the issuers of the underlying securities and not the fund or its shares. Ratings may be subject to change.

GLOSSARY OF TERMS

Effective Duration is the change in the value of a fixed income security that will result from a 1% change in market interest rates, taking into account anticipated cash flow fluctuations from mortgage prepayments, puts, adjustable coupons, and potential call dates. Duration is expressed as a number of years, and generally, the larger a duration, the greater the interest-rate risk or reward for a portfolio's underlying bond prices. Where applicable, securities, such as common or preferred stock, convertible bonds and convertible preferred stock, ETFs and ADRs, and CPI swaps and related futures, are excluded from these calculations.

Average Maturity is the length of time until the average security in a portfolio will mature or be redeemed by its issuer in proportion to its dollar value. Indicating a portfolio's sensitivity to general market interest rate changes, a longer average maturity implies greater relative portfolio volatility.

The information provided is not directed at any investor or category of investors and is provided solely as general information about Lord Abbett's products and services and to otherwise provide general investment education. None of the information provided should be regarded as a suggestion to engage in or refrain from any investment-related course of action as neither Lord Abbett nor its affiliates are undertaking to provide impartial investment advice, act as an impartial adviser, or give advice in a fiduciary capacity. If you are an individual retirement investor, contact your financial professional or other fiduciary about whether any given investment idea, strategy, product or service may be appropriate for your circumstances.

Class I Shares are available only to institutional investors and certain others, including retirement plans, as described in the prospectus.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Lord Abbett Funds.
